

New KS2 Free School Meal rules

Find out if your family qualifies!

What are Free School Meals?

Free School Meals are lunches provided at school at no cost to families who qualify. They help make sure children get a healthy meal during the school day.

More children can now get them

The scheme has been widened so more families can benefit. Currently **all** children in reception, year 1 and year 2 get free meals.

But from September many more families with children in Years 3 to 6 will qualify for free school meals.

If your family receives Universal Credit, you should now qualify for free school meals.

How much can it save?

Free School Meals can save families quite a bit of money — usually around **£450 per child each year**.

How do I apply?

You can apply through your local council. It's usually quick and can be done:

- Online on your council website
- By filling in a simple form

Just search online for **"Free School Meals"** and the name of your council or use the QR codes .

Need help?

If you're not sure how to apply, don't worry. Your **school office** can help you with the process.
